

2007 Year End PHRF-SD Newsletter

New for 2008

2008 will bring about a few more member benefits and features that will help the volunteers handle the difficult tasks of maintaining the Membership Roster and Boat Handicap Database. The goal is to have the ability to handle "On-line" Membership Applications, Renewals, Certificate Downloads and many of the other tasks now done manually. For this reason there are proposed By-Law and Competition Protocol amendments that require adoption. This detailed information is part of the package and document links below and is also available on the PHRF-SD website. <http://www.phrfsandiego.org/>
